

Halltech HT2000 MK5 Unique Selling Features

- Our unit is smaller, lighter (22 lbs.), more rugged and more comfortable.
- All the electronics, including the battery, are completely enclosed in a waterproof, virtually indestructible Pelican case.
- It rides higher on your back so you can fish deeper waters.
- The user interface is very user friendly with only the controls necessary to roll fish almost anywhere.
- Our waveform and duty cycles are optimized for non-lethal fish capture and widely used in species at risk surveys where so many fish are killed or damaged through the improper set up of the electronic parameters.
- Our power circuitry is extremely efficient allowing our batteries to last up to 3 times longer than our competitors.
- Our unit ships with two High Performance 29 volts 10 Amp hour Lithium-Ion Batteries as standard equipment!
- You can charge the battery in the unit and the spare battery simultaneously.
- We have a 12 VDC inverter for vehicle charging. Our units are extremely rugged, safe and reliable.
- Our units are easily convertible for use as an **Anesthesia Unit** or for use in a **Tote Barge** or **Jon Boat**.
- Our rugged transport case fully packed is only - **32 x 21 x 12.5" (80.3 x 52.7 x 31.4cm) 63lbs**
- Our after sale customer service is unparalleled!!

Please do not hesitate to contact us with any question or if you would like to proceed with an order.
